

AFTER SCHOOL

we learn, we build, we play with
LEGO® Bricks

St. Mary's Catholic School

Lego® and Lego® Robotics Classes Begin 3-7-17

Our classes are designed to be fun, interactive, and educational.

Lego® classes are for all ages and teach architecture and engineering concepts to students. Each two-person team builds a base model of whatever we are studying that day, and if they finish, they are challenged with a harder build that introduces new concepts and/or terms.

Robotics is for 3rd grade and older and incorporates equipment, software, hardware, and programming into a fun and technical 60-90 minutes.

Bricks 4 Kidz After School Classes Are Held Tuesdays
After School Between 3:30pm and 4:30pm.

Five-Week Sessions: Lego® (Kinder - 5th grade): \$50
Robotics (3rd - 5th grades): \$65
